

# Nuvepro Moodle LMS Accessibility Conformance Report International Edition

(Based on VPAT® Version 2.5Rev)

## Name of Product/Version:

Nuvepro Moodle LMS 4.6.0

## Report Date:

13<sup>th</sup> Aug 2026

## Product Description:

This VPAT covers the accessibility evaluation of the Nuvepro Moodle Learning Platform, specifically the user-facing functionality that enables learners to access and interact with cloud-based hands-on learning environments integrated within Moodle. The accessibility assessment includes the end-user workflows associated with launching and using Sandboxes, Practice Projects, Lab Control Panel, and Assessment activities. These features enable learners to provision and access cloud-based lab environments, perform guided practical exercises, complete assessments, and monitor the status of their learning activities directly within the Moodle platform.

## Contact Information:

91- 8149779758 , [info@nuvepro.com](mailto:info@nuvepro.com)

## Notes:

BarrierBreak performed an accessibility audit for Nuvepro Moodle LMS web application.

## Evaluation Methods Used:

A sample set of 12 Screens & 8 Components of Nuvepro Moodle LMS web application was identified to perform the audit.

The Webpages were evaluated using:

- Windows 11 / Google Chrome / JAWS 2025
- Windows 11 / Mozilla Firefox / NVDA 2025
- Mac 14 / Safari / VoiceOver
- Windows 11 / Google Chrome / ZoomText 2025
- Windows 11 / Google Chrome / Dragon Naturally Speaking 16

Accessibility testers performed the audit using:

- Automated tools
  - A11yInspect
  - Color contrast checker
- Keyboard-only interaction
- Screen readers
- Screen magnifier
- Speech recognition

Accessibility testers performed the test keeping WCAG 2.2 guidelines in mind. A few pages were tested using ZoomText and Dragon Naturally Speaking.

The results reflect the accessibility of a set of 12 Screens & 8 Components. The following pages were evaluated:

### Webpages and Component:

- Site Homepage before Login
- Login Page
- Signup/Register Page
- Logout Confirmation Pop-up
- Dashboard Page
- My Courses Page
- All Courses Page
- Course View Page
- Open Course Index
- Assessment Landing Page
- Assessment Description (Readmore)
- Tile Pop Up
- Assessment Lab Launch Page
- Access Lab
- Lab Usage Pop up
- Lab Instruction Pop Up
- Lab Credentials Pop Up
- Sandbox Activity Page

- Tile
- Parallel View

## Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

| Standard/Guideline                                                                                                                                                                                | Included In Report                                |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| <a href="#">Web Content Accessibility Guidelines 2.0</a>                                                                                                                                          | Level A (Yes)<br>Level AA (Yes)<br>Level AAA (No) |
| <a href="#">Web Content Accessibility Guidelines 2.1</a>                                                                                                                                          | Level A (Yes)<br>Level AA (Yes)<br>Level AAA (No) |

| <a href="#">Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018</a>                                                                                           | (Yes)                                             |
| <a href="#">EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11) AND EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)</a> | (Yes)                                             |

## Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

## WCAG 2.2 Report

Tables 1 and 2 also document conformance with:

- EN 301 549:
  - Clause 9 - Web
  - Clauses 10.1-10.4 of Clause 10 - Non-Web documents
  - Clauses 11.1-11.4 and 11.8.2 of Clause 11 - Software
  - Clauses 12.1.2 and 12.2.4 of Clause 12 - Documentation and support services
- Revised Section 508:
  - Chapter 5 - 501.1 Scope and 504.2 Content Creation or Editing
  - Chapter 6 - 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.1 Conformance Requirements](#).

## Table 1: Success Criteria, Level A

Notes: Applicable for a sample set of 12 screens and 8 Components.

| Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Conformance Level | Remarks and Explanations                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|-------------------------------------------------------------------------------|
| <b><u>1.1.1 Non-text Content</u></b> (Level A)<br>Also applies to:<br>EN 301 549 Criteria <ul style="list-style-type: none"> <li>● 9.1.1.1 (Web)</li> <li>● 10.1.1.1 (Non-web document)</li> <li>● 11.1.1.1.1 (Open Functionality Software)</li> <li>● 11.1.1.1.2 (Closed Functionality Software)</li> <li>● 11.8.2 (Authoring Tool)</li> <li>● 12.1.2 (Product Docs)</li> <li>● 12.2.4 (Support Docs)</li> </ul> Revised Section 508 <ul style="list-style-type: none"> <li>● 501 (Web)(Software)</li> <li>● 504.2 (Authoring Tool)</li> <li>● 602.3 (Support Docs)</li> </ul>                             | Supports          | All the informative and functional images have accurate textual descriptions. |
| <b><u>1.2.1 Audio-only and Video-only (Prerecorded)</u></b> (Level A)<br>Also applies to:<br>EN 301 549 Criteria <ul style="list-style-type: none"> <li>● 9.1.2.1 (Web)</li> <li>● 10.1.2.1 (Non-web document)</li> <li>● 11.1.2.1.1 (Open Functionality Software)</li> <li>● 11.1.2.1.2.1 and 11.1.2.1.2.2 (Closed Software)</li> <li>● 11.8.2 (Authoring Tool)</li> <li>● 12.1.2 (Product Docs)</li> <li>● 12.2.4 (Support Docs)</li> </ul> Revised Section 508 <ul style="list-style-type: none"> <li>● 501 (Web)(Software)</li> <li>● 504.2 (Authoring Tool)</li> <li>● 602.3 (Support Docs)</li> </ul> | Not Applicable    | Prerecorded Audio-only and Video-only content is not present.                 |
| <b><u>1.2.2 Captions (Prerecorded)</u></b> (Level A)<br>Also applies to:<br>EN 301 549 Criteria <ul style="list-style-type: none"> <li>● 9.1.2.2 (Web)</li> <li>● 10.1.2.2 (Non-web document)</li> <li>● 11.1.2.2 (Open Functionality Software)</li> <li>● 11.1.2.2 (Closed Software)</li> <li>● 11.8.2 (Authoring Tool)</li> <li>● 12.1.2 (Product Docs)</li> <li>● 12.2.4 (Support Docs)</li> </ul> Revised Section 508                                                                                                                                                                                   | Not Applicable    | Prerecorded Audio-only and Video-only content is not present.                 |

| Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Conformance Level  | Remarks and Explanations                                                                                                                                                                                                                                                                                               |

| <b><u>4.1.3 Status Messages</u></b> (Level AA 2.1 and 2.2)<br>Also applies to:<br>EN 301 549 Criteria <ul style="list-style-type: none"> <li>9.4.1.3 (Web)</li> <li>10.4.1.3 (Non-web document)</li> <li>11.4.1.3 (Open Functionality Software)</li> <li>11.4.1.3 (Closed Software) – Does not apply</li> <li>11.8.2 (Authoring Tool)</li> <li>12.1.2 (Product Docs)</li> <li>12.2.4 (Support Docs)</li> </ul> Revised Section 508 – Does not apply                                                                                                                 | Supports          | Error and status messages are identified for assistive technology users.                            |

**Table 3: Success Criteria, Level AAA**

Notes: Not Evaluated

## Revised Section 508 Report

Notes: Applicable for a sample set of 12 screens and 8 Components.

### Chapter 3: Functional Performance Criteria (FPC)

Notes: Applicable for a sample set of 12 screens and 8 Components.

| Criteria                          | Conformance Level  | Remarks and Explanations                                                                                                                                                                                                                                                                     |
|-----------------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 302.1 Without Vision              | Partially Supports | The web application features allow people without vision to use screen readers to interact with user interface elements. Some components misidentify the name, role, and state of interactive elements as disclosed in Table 1: 1.3.1, 2.4.2, 2.4.3, 3.3.1, 3.3.2, 4.1.2 and Table 2: 2.4.6. |
| 302.2 With Limited Vision         | Partially Supports | The web application features allow people with limited vision to access most of the interface elements. Some challenges may occur while accessing the web application as disclosed in Table 2: 1.4.4.                                                                                        |
| 302.3 Without Perception of Color | Supports           | The web application features allow people without perception of color to access all the content and functionality.                                                                                                                                                                           |
| 302.4 Without Hearing             | Supports           | The web application features allow people without hearing to access all the content and functionality.                                                                                                                                                                                       |
| 302.5 With Limited Hearing        | Supports           | The web application features allow people with limited hearing to access all the content and functionality.                                                                                                                                                                                  |
| 302.6 Without Speech              | Supports           | The web application features allow people without speech to access all the content and functionality as controls do not require speech input.                                                                                                                                                |
| 302.7 With Limited Manipulation   | Partially Supports | The web application can be operated by people with limited manipulation. Some challenges may occur while accessing the web                                                                                                                                                                   |

| Criteria                                                       | Conformance Level  | Remarks and Explanations                                                                                                                                                                                 |
|----------------------------------------------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                |                    | application as disclosed in Table 1: 2.4.3 and Table 2: 2.4.6.                                                                                                                                           |
| 302.8 With Limited Reach and Strength                          | Partially Supports | The web application features can be operated by people with limited reach and strength. Some challenges may occur while accessing the web application as disclosed in Table 1: 2.4.3 and Table 2: 2.4.6. |
| 302.9 With Limited Language, Cognitive, and Learning Abilities | Supports           | The web application features can be operated by people with limited language, cognitive and learning abilities.                                                                                          |

## Chapter 4: [Hardware](#)

Notes: Nuvepro Moodle LMS is not a hardware and thus, all the requirements of this section are not applicable.

## Chapter 5: [Software](#)

Notes: Applicable for a sample set of 12 screens and 8 Components.

| Criteria                                                              | Conformance Level                                                                                                             | Remarks and Explanations                       |
|-----------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|

| 502.3.14 Event Notification                                                         | Not Applicable                      | Nuvepro Moodle LMS is not a platform software.                      |
| 502.4 Platform Accessibility Features                                               | Not Applicable                      | Nuvepro Moodle LMS is not a platform software.                      |
| <b><u>503 Applications</u></b>                                                      | Heading cell – no response required | Heading cell – no response required                                 |
| 503.2 User Preferences                                                              | Supports                            | Nuvepro Moodle LMS permits user preferences from platform settings. |
| 503.3 Alternative User Interfaces                                                   | Not Applicable                      | Nuvepro Moodle LMS is not a platform software.                      |
| <b><i>503.4 User Controls for Captions and Audio Description</i></b>                | Heading cell – no response required | Heading cell – no response required                                 |
| 503.4.1 Caption Controls                                                            | Not Applicable                      | Prerecorded multimedia content is not present.                      |
| 503.4.2 Audio Description Controls                                                  | Not Applicable                      | Prerecorded multimedia content is not present.                      |
| <b><u>504 Authoring Tools</u></b>                                                   | Heading cell – no response required | Heading cell – no response required                                 |
| 504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)   | Not Applicable                      | Nuvepro Moodle LMS is not an authoring tool.                        |
| 504.2.1 Preservation of Information Provided for Accessibility in Format Conversion | Not Applicable                      | Nuvepro Moodle LMS is not an authoring tool.                        |
| 504.2.2 PDF Export                                                                  | Not Applicable                      | Nuvepro Moodle LMS is not an authoring tool.                        |
| 504.3 Prompts                                                                       | Not Applicable                      | Nuvepro Moodle LMS is not an authoring tool.                        |
| 504.4 Templates                                                                     | Not Applicable                      | Nuvepro Moodle LMS is not an authoring tool.                        |

## Chapter 6: Support Documentation and Services

Notes: Support documentation and services of Nuvepro Moodle LMS are not a part of the accessibility review.

| Criteria                                                         | Conformance Level                   | Remarks and Explanations                                                                             |
|------------------------------------------------------------------|-------------------------------------|------------------------------------------------------------------------------------------------------|
| <b>601.1 Scope</b>                                               | Heading cell – no response required | Heading cell – no response required                                                                  |
| <b><u>602 Support Documentation</u></b>                          | Heading cell – no response required | Heading cell – no response required                                                                  |
| 602.2 Accessibility and Compatibility Features                   | Not Applicable                      | Accessibility and compatibility features are not a part of the accessibility review.                 |
| 602.3 Electronic Support Documentation                           | Not Applicable                      | Electronic support documentation is not part of the accessibility review.                            |
| 602.4 Alternate Formats for Non-Electronic Support Documentation | Not Applicable                      | Alternate formats for Non-Electronic Support Documentation are not part of the accessibility review. |
| <b><u>603 Support Services</u></b>                               | Heading cell – no response required | Heading cell – no response required                                                                  |
| 603.2 Information on Accessibility and Compatibility Features    | Not Applicable                      | Information on accessibility and compatibility features is not part of the accessibility review.     |
| 603.3 Accommodation of Communication Needs                       | Not Applicable                      | Accommodation of communication needs is not part of the accessibility review.                        |

## EN 301 549 Report

Notes: Applicable for a sample set of 12 screens and 8 Components.

### Clause 4: Functional Performance Statements (FPS)

Notes: Applicable for a sample set of 12 screens and 8 Components.

| Criteria                                        | Conformance Level  | Remarks and Explanations                                                                                                                                                                                                                                                                     |
|-------------------------------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.2.1 Usage without vision                      | Partially Supports | The web application features allow people without vision to use screen readers to interact with user interface elements. Some components misidentify the name, role, and state of interactive elements as disclosed in Table 1: 1.3.1, 2.4.2, 2.4.3, 3.3.1, 3.3.2, 4.1.2 and Table 2: 2.4.6. |
| 4.2.2 Usage with limited vision                 | Partially Supports | The web application features allow people with limited vision to access most of the interface elements. Some challenges may occur while accessing the web application as disclosed in Table 2: 1.4.4, 1.4.10, 1.4.11 and 1.4.12.                                                             |
| 4.2.3 Usage without perception of colour        | Partially Supports | The web application features allow people without perception of color to access most of the content and functionality. A few challenges of color contrast are found as disclosed in Table 2: 1.4.11.                                                                                         |
| 4.2.4 Usage without hearing                     | Supports           | The web application features allow people without hearing to access all the content and functionality.                                                                                                                                                                                       |
| 4.2.5 Usage with limited hearing                | Supports           | The web application features allow people with limited hearing to access all the content and functionality.                                                                                                                                                                                  |
| 4.2.6 Usage with no or limited vocal capability | Supports           | The web application features allow people without speech to access all the content and functionality as controls do not require speech input.                                                                                                                                                |

|                                                           |                    |                                                                                                                                                                                                          |
|-----------------------------------------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.2.7 Usage with limited manipulation or strength         | Partially Supports | The web application can be operated by people with limited manipulation. Some challenges may occur while accessing the web application as disclosed in Table 1: 2.4.3 and Table 2: 1.3.5.                |
| 4.2.8 Usage with limited reach                            | Partially Supports | The web application features can be operated by people with limited reach and strength. Some challenges may occur while accessing the web application as disclosed in Table 1: 2.4.3 and Table 2: 1.3.5. |
| 4.2.9 Minimize photosensitive seizure triggers            | Supports           | The web application does not include any content that triggers photosensitive seizures.                                                                                                                  |
| 4.2.10 Usage with limited cognition, language or learning | Supports           | The web application features allow people with limited language, cognitive, and learning abilities.                                                                                                      |
| 4.2.11 Privacy                                            | Supports           | The web application features respect the privacy of assistive technology users.                                                                                                                          |

## Clause 5: [Generic Requirements](#)

Notes: Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality.

| Criteria                                   | Conformance Level                   | Remarks and Explanations                                                                                                |
|--------------------------------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>5.1 Closed functionality</b>            | Heading cell – no response required | Heading cell – no response required                                                                                     |
| <b>5.1.2 General</b>                       | Heading cell – no response required | Heading cell – no response required                                                                                     |
| <b>5.1.2.1 Closed functionality</b>        | See 5.2 through 13                  | See information in 5.2 through 13                                                                                       |
| <b>5.1.2.2 Assistive technology</b>        | See 5.1.3 through 5.1.6             | See information in 5.1.3 through 5.1.6                                                                                  |
| <b>5.1.3 Non-visual access</b>             | Heading cell – no response required | Heading cell – no response required                                                                                     |

| 5.1.3.13 Volume reset                                 | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.3.14 Spoken languages                             | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.3.15 Non-visual error identification              | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.3.16 Receipts, tickets, and transactional outputs | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.4 Functionality closed to text enlargement        | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.5 Visual output for auditory information          | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| <b>5.1.6 Operation without keyboard interface</b>     | Heading cell – no response required | Heading cell – no response required                                                                                     |
| <b>5.1.6.1 Closed functionality</b>                   | See 5.1.3.1 through 5.1.3.16        | See information in 5.1.3.1 through 5.1.3.16                                                                             |
| 5.1.6.2 Input focus                                   | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.1.7 Access without speech                           | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.2 Activation of accessibility features              | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.3 Biometrics                                        | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |

| Criteria                                                        | Conformance Level                   | Remarks and Explanations                                                                                                |
|-----------------------------------------------------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| 5.4 Preservation of accessibility information during conversion | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| <b>5.5 Operable parts</b>                                       | Heading cell – no response required | Heading cell – no response required                                                                                     |
| 5.5.1 Means of operation                                        | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.5.2 Operable parts discernibility                             | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| <b>5.6 Locking or toggle controls</b>                           | Heading cell – no response required | Heading cell – no response required                                                                                     |
| 5.6.1 Tactile or auditory status                                | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.6.2 Visual status                                             | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.7 Key repeat                                                  | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.8 Double-strike key acceptance                                | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |
| 5.9 Simultaneous user actions                                   | Not Applicable                      | Nuvepro Moodle LMS supports standard assistive technologies and is, therefore, not subject to the closed functionality. |

## Clause 6: [ICT with Two-Way Voice Communication](#)

Notes: Nuvepro Moodle LMS is not an ICT with Two-Way Voice Communication and thus, all the requirements of this section are not applicable.

## Clause 7: [ICT with Video Capabilities](#)

Notes: Nuvepro Moodle LMS is not an ICT with Video Capabilities and thus, all the requirements

of this section are not applicable.

## Clause 8: [Hardware](#)

Notes: Nuvepro Moodle LMS is not hardware and thus, all the requirements of this section are not applicable.

## Clause 9: [Web](#) (see [WCAG 2.2 section](#))

Notes: Refer to the previously identified remarks and details for WCAG 2.2 already provided in this VPAT.

## Clause 10: [Non-Web Documents](#)

Notes: Nuvepro Moodle LMS is not a Non-Web document and thus, all the requirements of this section are not applicable.

## Clause 11: [Software](#)

Notes: Applicable for a sample set of 12 screens and 8 Components.

| Criteria                                                                                    | Conformance Level                                                                                                                                               | Remarks and Explanations                           |
